Thursday, May 26, 2011 in Deauville, Silvio Berlusconi told Barak Obama: "I have a new majority and we presented the reform of justice. Is crucial for us because, at this moment, we have almost a dictatorship of left judges". And he would have continued saying to be the subject of "31 investigations" and a real "persecution".

This morning, the scene was repeated with Dmitrij Medvedev.

I know well the Italian judiciary. The Italian judges are neither right nor left, Among them, there are people prepared and unprepared people, many judges honest and some dishonest. Just Silvio Berlusconi has corrupted some judges.

Over the past 50 years, the Italian justice has committed over 5 million miscarriages of justice. Often they was not recognized and corrected. This is not just about Silvio Berlusconi, but all the Italians. But I am convinced that will be improved. Without Silvio Berlusconi. He is very nervous for that too [www.wgov.org/rrs.htm](http://www.wgov.org/rrs.htm).

However, in Italy, there is not an almost dictatorship of the judiciary but, as in other countries, the dictatorship of money.

Sincerely.
